WINGS SERIES

01

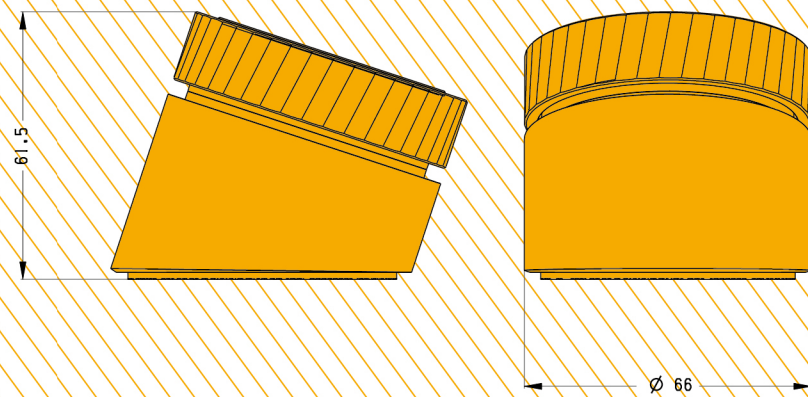

Rotary remote control

02

LCD panel

03

Eight-key mechanical panel

01
 “Freedom of
 light, freedom of people.”

ORIGIN OF THE NAME OF WINGS SERIES

“Embrace intelligent life and release physical and mental restriction .”

In the fast-paced modern life, we return home tired and desire to enjoy a freer and smarter lifestyle. As a classic collection of snappy, the wings series is simple and elegant, which can help you control the lighting in the room anytime and anywhere, making life easier and more convenient. Like an invisible wing, it will lead you soaring in the sky of smart technology.

PRODUCT DESCRIPTION

Provide four key and rotary operation controls.

Sensitive rotary operation.

LED status indication during operation.

Support dimming control, color temperature control.

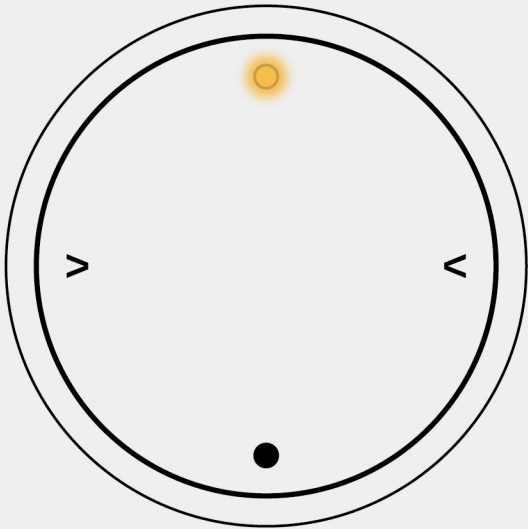

Powered by button battery CR2450 or same specification battery.

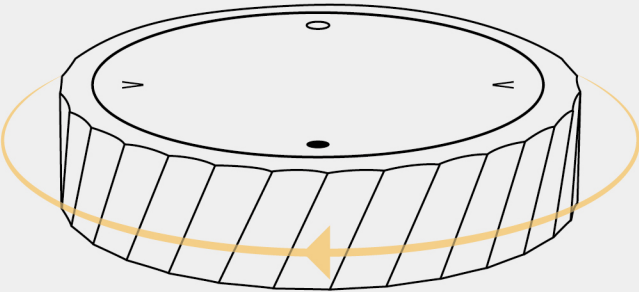

5 years warranty.

“

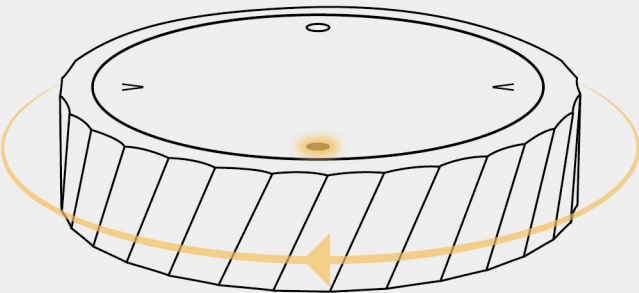

■ Each button can be customized with functions, including light groups, scenes, and one key for on/off all devices.

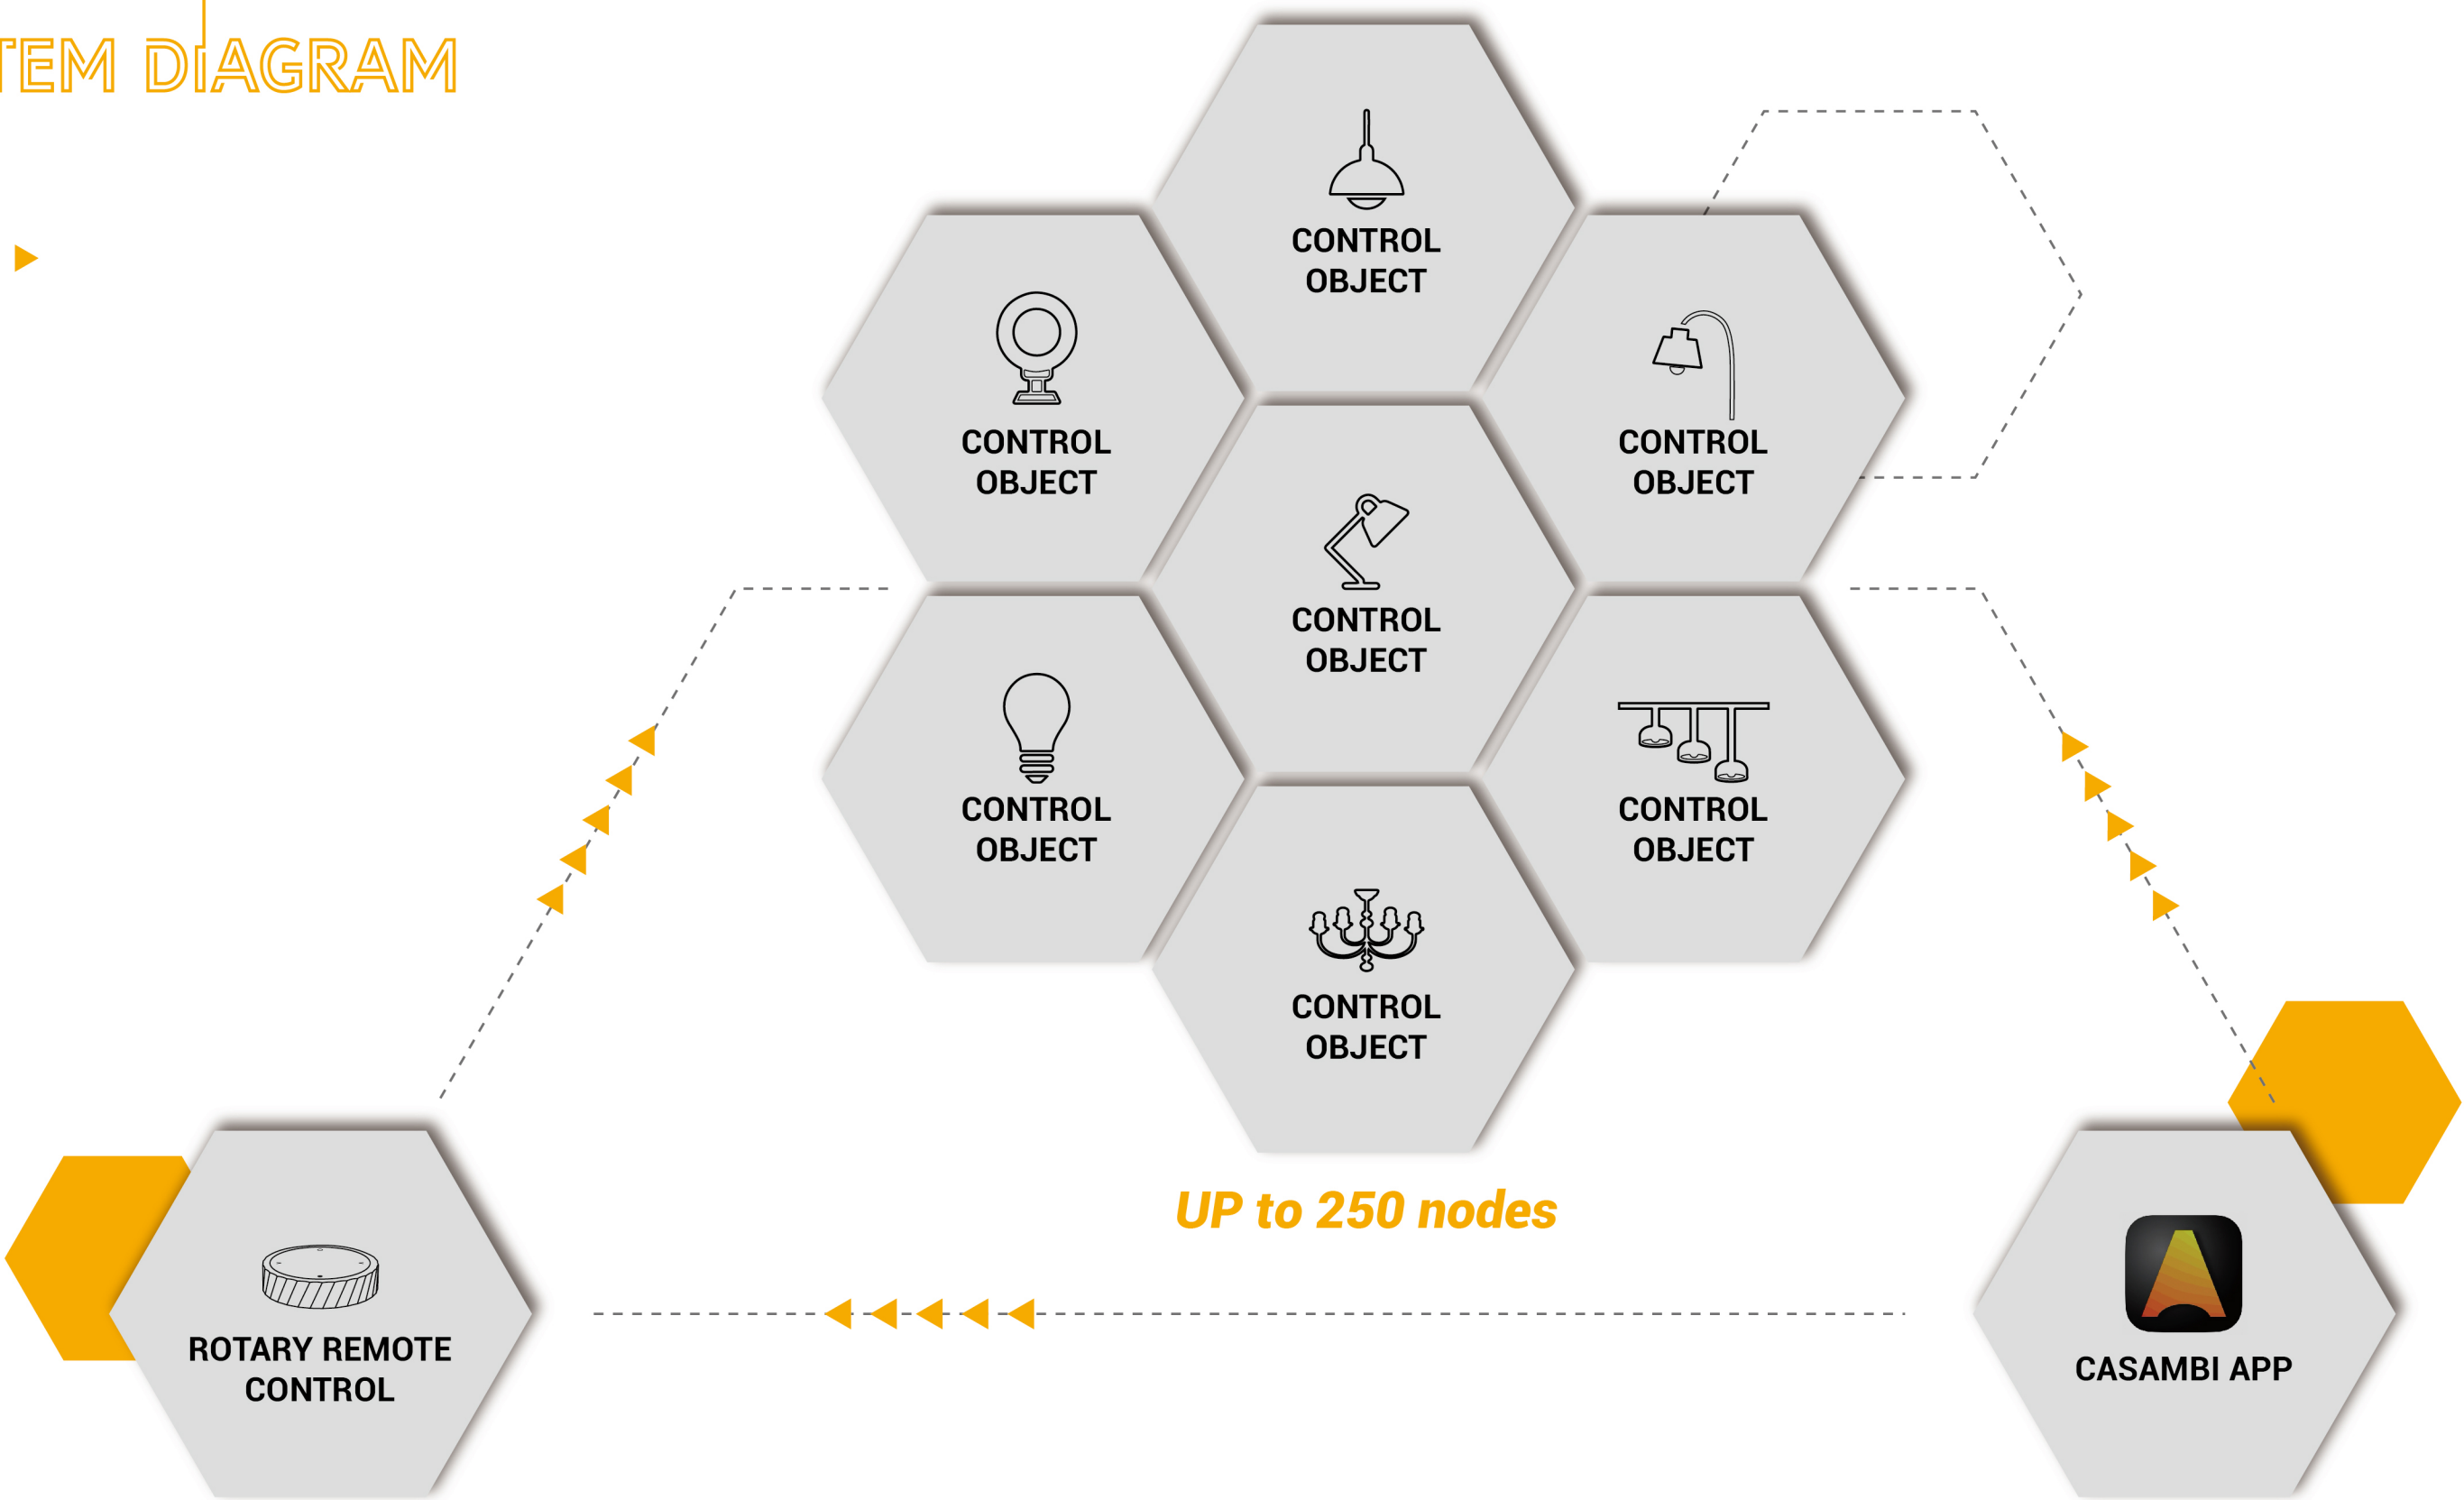

■ The brightness of the light can be controlled by rotating.

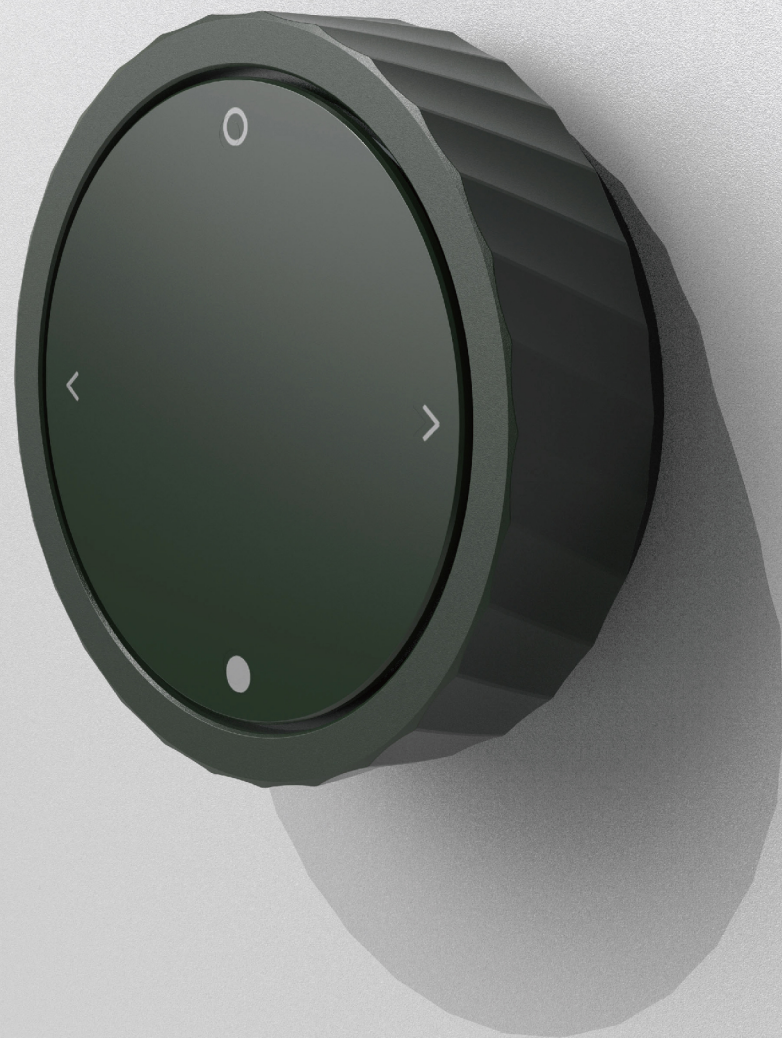

■ Double click the corresponding light button, and then rotate to adjust the color temperature of the light.
