L'EVOLUZIONE DELLA LUCE

GEA LUCE, nata dalla visione sinergica di tre fratelli, è la sintesi perfetta tra esperienza e innovazione costante.

Un percorso lungo tre decenni, scandito da una continua evoluzione estetica e tecnologica che oggi definisce una realtà solida, capace di fondere design e performance.

L'ampio portfolio prodotti spazia dal rigore dell'illuminazione tecnica alla ricercatezza delle soluzioni decorative, integrando da quest'anno il catalogo dedicato alle sorgenti LED di ultima generazione.

THE EVOLUTION OF LIGHT

GEA LUCE, born from the synergistic vision of three brothers, represents the perfect synthesis of experience and continuous innovation.

A journey spanning three decades, marked by constant aesthetic and technological evolution, which today defines a solid company capable of combining design and performance.

Its extensive product portfolio ranges from the precision of technical lighting to the sophistication of decorative solutions, now further enriched by the inclusion of a catalog dedicated to next-generation LED sources.

Lucia, Enrico e Antonio Giamieri

“Sebbene le tendenze si trasformino e nuovi materiali e tecnologie emergano, noi rimaniamo fedeli ad un’idea semplice ma fondamentale: realizzare luci che sappiano illuminare la vostra storia, valorizzare i vostri spazi e adattarsi al vostro modo di vivere, con un perfetto equilibrio tra stile e funzionalità.”

‘Although trends change and new materials and technologies emerge, we remain true to a simple but fundamental idea: to create lighting that can illuminate your history, enhance your spaces and adapt to the way you live, with a perfect balance of style and functionality.’

Con l'ampliamento della gamma dedicata alle lampadine, GEA LUCE completa la propria proposta di illuminazione offrendo soluzioni versatili, efficienti e perfettamente coordinate con ogni progetto luminoso. Dalle sorgenti pensate per valorizzare gli apparecchi decorativi alle opzioni tecniche ad alte prestazioni, la nuova selezione garantisce qualità, coerenza estetica e massima affidabilità, permettendo di definire ogni ambiente con la luce più adatta.

WE DEFINE YOUR STANDARDS OF EXCELLENCE.

With the expansion of its range of light bulbs, GEA LUCE completes its lighting offering by providing versatile, efficient solutions that are perfectly coordinated with every lighting project. From light sources designed to enhance decorative fixtures to high-performance technical options, the new selection guarantees quality, aesthetic consistency and maximum reliability, allowing you to define every environment with the most suitable lighting.

CATALOGO DECORATIVE 2026

In Decorative trovi tutte le proposte d'illuminazione decorativa: lampade a sospensione, a soffitto, a parete, lampade da terra e da tavolo.

In this section you'll find the full range of decorative lighting: pendant lamps, ceiling lamps, wall lamps, floor lamps and table lamps.

CATALOGO TECHNICAL 2026

Nella divisione Technical sono raggruppate tutte le soluzioni per il lighting design, con sistemi ad incasso, proiettori, binari, faretti ad incasso, strip LED e tutte le proposte d'illuminazione tecnica per interni ed esterni.

This section covers all the lighting design solutions, including recessed systems, projectors, tracks, recessed spotlights, LED strips and the full range of technical lighting options for interiors and exteriors.

**DEFINIAMO I
VOSTRI STANDARD
DI ECCELLENZA**

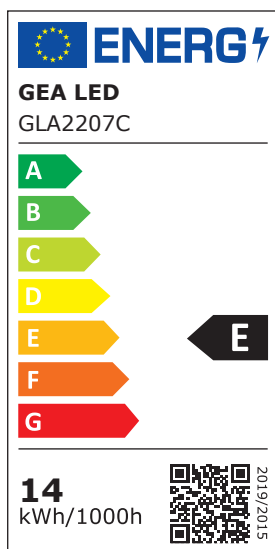

UNA LUCE DI QUALITÀ, DURATURA E CONVENIENTE

Le lampadine LED garantiscono consumi ridotti, lunga durata e minore manutenzione rispetto alle soluzioni tradizionali. Producendo poca dispersione di calore, offrono maggiore sicurezza e prestazioni stabili nel tempo.

Le classi energetiche più elevate attestano prestazioni superiori ed efficienza ottimale, contribuendo a ridurre l'impatto ambientale e i costi di gestione.

HIGH-QUALITY, LONG-LASTING AND AFFORDABLE LIGHTING
LED bulbs guarantee reduced consumption, long life and less maintenance compared to traditional solutions. Producing little heat dispersion, they offer greater safety and stable performance over time.
The highest energy classes certify superior performance and optimal efficiency, helping to reduce environmental impact and running costs.

L'etichetta include il consumo energetico per 1.000 ore (kWh/1000h) e un Codice QR che rimanda al database europeo EPREL per maggiori dettagli.

The label includes energy consumption per 1,000 hours (kWh/1,000h) and a QR code that links to the European EPREL database for further details.

LA NUOVA ETICHETTA ENERGETICA EUROPEA

La nuova scala energetica europea, in vigore dal 1° settembre 2021, ha l'obiettivo di semplificare la valutazione dell'efficienza e stimolare l'innovazione.

Ritorna alla classificazione da A (più efficiente) a G (meno efficiente), eliminando le vecchie classi A+, A++, ecc., che generavano confusione.

Le lampadine LED precedentemente classificate come A++ (eccellenti) si trovano ora tipicamente nelle nuove classi C, D o E. L'obiettivo è lasciare libere le classi A e B per i prodotti futuri con un'efficienza energetica ancora superiore.

In sostanza, una classificazione D o E sulla nuova etichetta indica comunque un prodotto molto efficiente (solitamente LED) secondo gli standard attuali.

THE NEW EUROPEAN ENERGY LABEL

The new European energy scale, in force since 1 September 2021, aims to simplify efficiency assessment and stimulate innovation.

It goes back to the classification from A (most efficient) to G (least efficient), eliminating the old classes A+, A++, etc., which caused confusion.

LED bulbs previously classified as A++ (excellent) are now typically found in the new classes C, D or E. The aim is to leave classes A and B free for future products with even higher energy efficiency.

In essence, a D or E classification on the new label still indicates a very efficient product (usually LED) according to current standards.

ILLUMINA OGNI SPAZIO, SODDISFA OGNI ESIGENZA

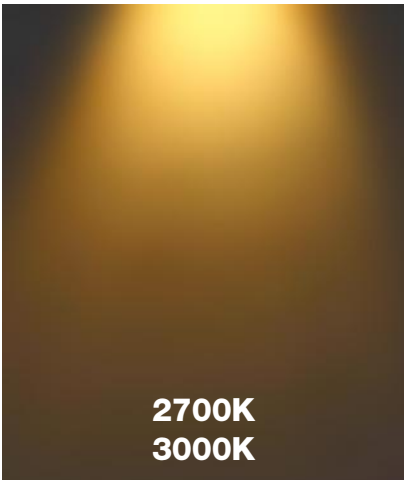

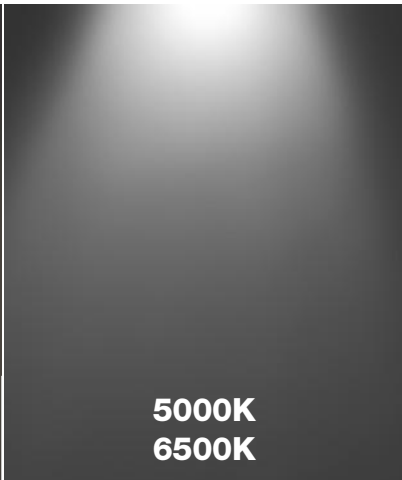

Grazie all'ampia gamma di soluzioni disponibili, ogni lampadina può essere selezionata in base a specifiche esigenze funzionali ed estetiche, assicurando una resa luminosa ottimale e contribuendo alla valorizzazione di qualsiasi ambiente.

LIGHT UP EVERY SPACE, MEET EVERY NEED

Thanks to the wide range of solutions available, each bulb can be selected according to specific functional and aesthetic requirements, ensuring optimal light output and contributing to the enhancement of any environment.

La temperatura colore (CCT), espressa in Kelvin (K), rappresenta un parametro essenziale nella definizione dell'atmosfera e dell'efficacia illuminotecnica di uno spazio. La scelta della tonalità più appropriata non riguarda solo l'aspetto estetico, ma influisce direttamente sul comfort visivo, sul benessere e sulla produttività.

Colour temperature (CCT), expressed in Kelvin (K), is an essential parameter in defining the atmosphere and lighting effectiveness of a space. Choosing the most appropriate shade is not just a matter of aesthetics, but also has a direct impact on visual comfort, well-being and productivity.

RELAX E COMFORT: crea un'atmosfera accogliente, intima e rilassante, perfetta per ambienti domestici e di ospitalità. RELAXATION AND COMFORT: creates a welcoming, intimate and relaxing atmosphere, perfect for domestic and hospitality environments.	VERSATILITÀ ED EQUILIBRIO: offre una luce chiara ma non fredda, ideale per attività quotidiane e per percepire i colori in modo fedele. VERSATILITY AND BALANCE: provides clear but not cold light, ideal for everyday activities and for accurate colour perception.	VIGILANZA E CONCENTRAZIONE: stimola la produttività e la chiarezza visiva, indispensabile dove è richiesta alta attenzione ai dettagli e massima resa luminosa. VIGILANCE AND CONCENTRATION: stimulates productivity and visual clarity, essential where high attention to detail and maximum light output are required.

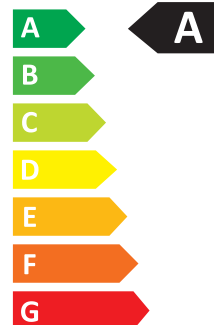

CLASSE A

LAMPADINE LED LED BULBS

Le lampadine LED in classe A rappresentano l'eccellenza in termini di efficienza energetica e innovazione tecnologica. Progettate per garantire un'illuminazione di alta qualità con consumi estremamente ridotti, permettono di risparmiare energia e diminuire l'impatto ambientale senza rinunciare a prestazioni e durata. Grazie alle tecnologie più avanzate, offrono luce uniforme, affidabile e una lunga vita utile, risultando la scelta ideale per chi desidera coniugare comfort, sostenibilità e attenzione ai costi.

Class A LED bulbs represent excellence in terms of energy efficiency and technological innovation. Designed to guarantee high-quality lighting with extremely low consumption, they save energy and reduce environmental impact without compromising on performance and durability. Thanks to the most advanced technologies, they offer uniform, reliable light and a long service life, making them the ideal choice for those who want to combine comfort, sustainability and cost-effectiveness.

RELAMPING: la soluzione semplice e immediata per migliorare l'illuminazione e ridurre i costi

Il relamping consiste nella sostituzione delle lampadine tradizionali con moderne lampadine LED, mantenendo invariato l'impianto di illuminazione esistente.

Le lampadine LED in classe energetica A garantiscono un elevato risparmio energetico, riducendo i consumi e i costi in bolletta, e assicurano al tempo stesso una luce efficiente e di qualità. Grazie alla loro lunga durata e al minor impatto ambientale, i LED rappresentano una scelta sostenibile, contribuendo alla riduzione delle emissioni di CO2 e dei rifiuti.

RELAMPING: the simple and immediate solution to improve lighting and reduce costs

Relamping consists of replacing traditional light bulbs with modern LED bulbs, while keeping the existing lighting system unchanged.

Energy class A LED bulbs guarantee high energy savings, reducing consumption and costs on your bill, while ensuring efficient, high-quality lighting.

Thanks to their long life and lower environmental impact, LEDs are a sustainable choice, contributing to the reduction of CO2 emissions and waste.

FILAMENT

LAMPADINE LED LED BULBS

Le lampadine LED Filament rappresentano l'incontro perfetto tra design classico e tecnologia moderna. I sottili filamenti a LED, visibili all'interno del bulbo trasparente o colorato, riproducono l'aspetto delle lampadine a incandescenza, valorizzando l'estetica degli ambienti senza rinunciare all'efficienza. Le lampadine LED Filament offrono una luce calda e uniforme, consumi energetici ridotti e una durata nettamente superiore rispetto alle soluzioni tradizionali. Versatili e affidabili, sono ideali sia per l'illuminazione decorativa sia per l'uso quotidiano, coniugando comfort visivo, risparmio e stile.

Filament LED bulbs are the perfect combination of classic design and modern technology. The thin LED filaments, visible inside the transparent or coloured bulb, reproduce the appearance of incandescent bulbs, enhancing the aesthetics of any room without compromising on efficiency. Filament LED bulbs offer warm, uniform light, reduced energy consumption and a significantly longer life than traditional solutions. Versatile and reliable, they are ideal for both decorative lighting and everyday use, combining visual comfort, savings and style.

SMD

LAMPADINE LED LED BULBS

Le lampadine LED SMD (Surface Mount Device) rappresentano l'evoluzione più matura e versatile dell'illuminazione.

A differenza dei LED tradizionali, i chip SMD sono montati direttamente sulla superficie del circuito stampato, eliminando i cablaggi superflui e ottimizzando la gestione del calore e dello spazio.

Le lampadine LED SMD combinano innovazione tecnologica ed elevata efficienza luminosa, garantiscono una diffusione della luce uniforme, consumi ridotti e un'eccellente resa luminosa. Affidabili e durature, sono ideali per applicazioni domestiche e professionali, offrendo un'illuminazione moderna, stabile e di qualità, con un significativo risparmio energetico rispetto alle soluzioni tradizionali.

SMD (Surface Mount Device) LED bulbs represent the most mature and versatile evolution in lighting.

Unlike traditional LEDs, SMD chips are mounted directly on the surface of the printed circuit board, eliminating unnecessary wiring and optimising heat and space management.

SMD LED bulbs combine technological innovation and high luminous efficiency, ensuring uniform light diffusion, reduced consumption and excellent light output. Reliable and durable, they are ideal for domestic and professional applications, offering modern, stable and high-quality lighting with significant energy savings compared to traditional solutions.

SMART & SPECIAL LAMPADINE LED LED BULBS

Le lampadine LED Smart & Special offrono un'illuminazione versatile e personalizzabile, pensata per adattarsi a ogni esigenza e atmosfera. Grazie alla tecnologia CCT con più temperature di colore o alla funzione RGBW, permettono di scegliere tra luce calda, naturale, fredda o una vasta gamma di colori, trasformando ogni ambiente con un semplice controllo. Innovative e funzionali, uniscono efficienza energetica, comfort visivo e libertà creativa, rendendo l'illuminazione un vero elemento di design e benessere.

Smart & Special LED bulbs offer versatile and customisable lighting, designed to adapt to every need and atmosphere. Thanks to CCT technology with multiple colour temperatures or the RGBW function, they allow you to choose between warm, natural, cool light or a wide range of colours, transforming any environment with a simple control. Innovative and functional, they combine energy efficiency, visual comfort and creative freedom, making lighting a true element of design and well-being.

CONTROLLO DELL'ILLUMINAZIONE TRAMITE SMARTPHONE E APP

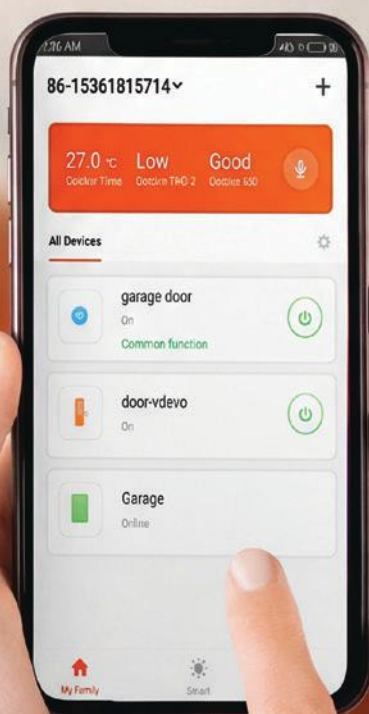

Grazie alle lampade e ai sistemi di illuminazione SMART & SPECIAL, potete gestire la luce direttamente dallo smartphone, ovunque vi troviate.

Con le app "Smart life" o "Tuya" potete creare scenari luminosi personalizzati, adattati alle nostre esigenze abitative, migliorando benessere, comfort e sicurezza.

LIGHTING CONTROL VIA SMARTPHONE AND APP

Thanks to SMART & SPECIAL lamps and lighting systems, you can manage your lighting directly from your smartphone, wherever you are.

With the 'Smart life' or 'Tuya' apps, you can create customised lighting scenarios tailored to your living needs, improving well-being, comfort and safety.
